

Hello! I Am **Vijayamadaeshwar**

A Designer who

Judges a book by its **cover**...

Because if the cover does not impress you what else can?

I'm a UI/UX Designer.

Currently, I'm a designer at **Facebook**

A self-taught UI/UX designer, functioning in the industry for 3+ years now.
I make meaningful and delightful digital products that create an equilibrium
between user needs and business goals.

I'm currently looking to join a **cross-functional** team
that values improving people's lives through accessible design

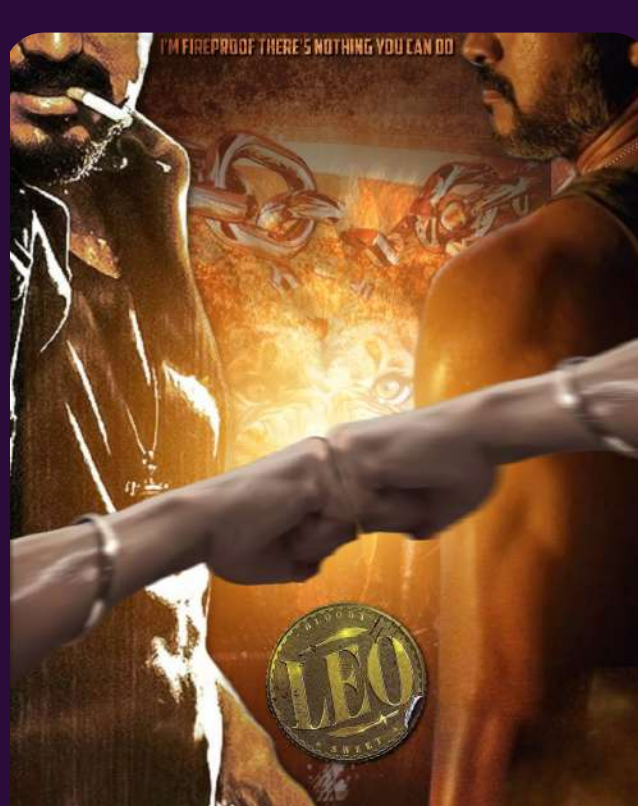

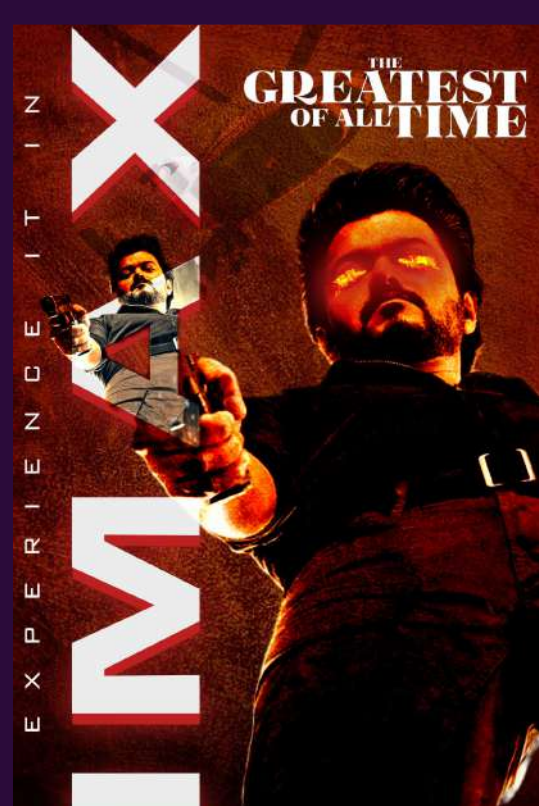

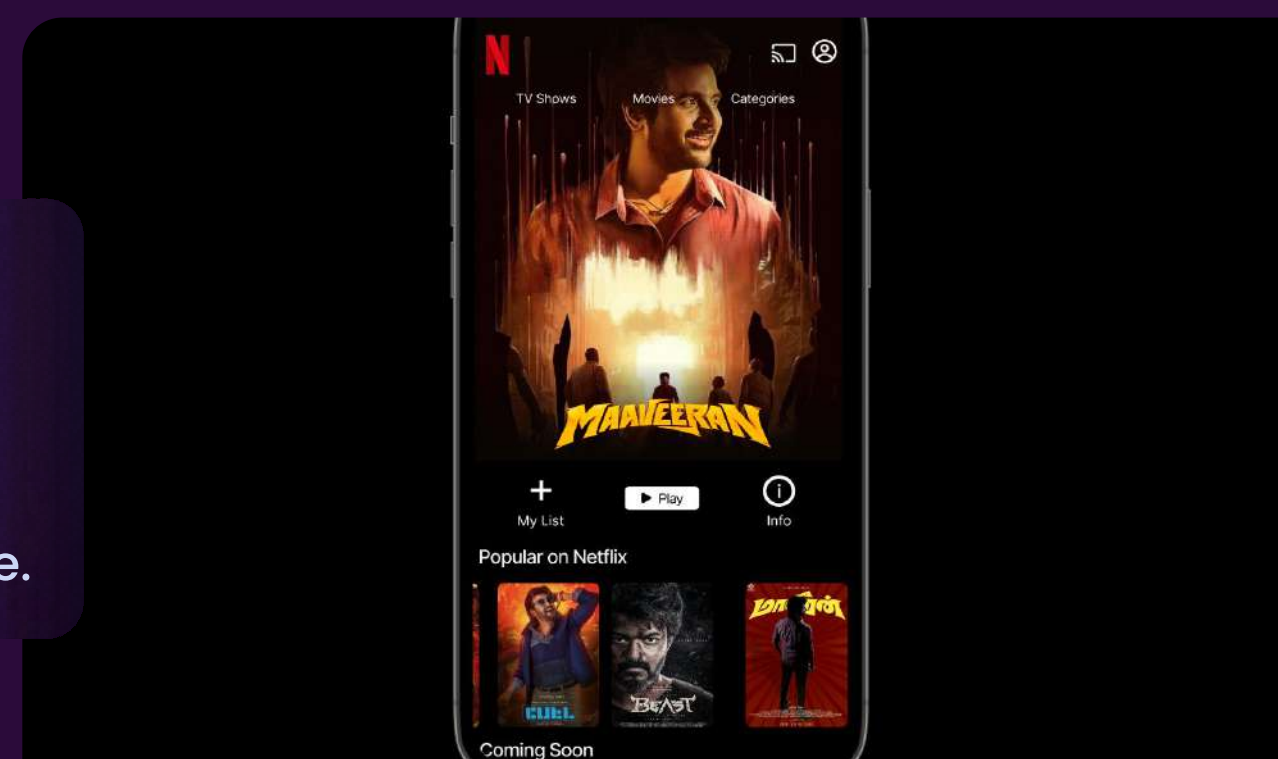

vm

Featured Project

Netflix Clone

The Netflix UI/UX project focused on enhancing the platform's user interface and experience to boost engagement and ease content discovery. Key improvements included a revamped recommendation algorithm for more personalized suggestions, redesigned navigation and a more enjoyable overall user experience.

The poster design in Photoshop focused on creating a visually striking and informative layout to capture attention and communicate the intended message effectively. Key elements included using high-resolution graphics and compelling visuals to enhance impact, selecting a balanced typography mix for readability and appeal, and choosing a cohesive color palette that aligns with the poster's theme.

Contact

I'm currently looking to join a cross-functional team that values improving people's lives through accessible design. or have a project in mind? Let's connect.
